**Call 844-639-7243 to get started today!**

## Why is it time to upgrade?

Both Gilbarco and Verifone are requiring Marketers to transition to a certified MNSP. This transition allows support for high speed remote access, returns the control of the network and security to your chosen Managed Network Service Provider and helps meet requirements for outdoor EMV. In addition, it allows for continuous improvement and adoption of innovative technology. No need to worry, Hughes is here to help make this transition simple.

## Who is Hughes? Look to the Leader

With 40 years of innovation, coupled with our development and service delivery expertise, Hughes is the leading one-stop provider of managed services for multi-branch organizations around the world. Hughes has delivered secure and reliable managed network connectivity to leading retail petroleum brands for over 20 years. With over 425,000 distributed enterprise locations worldwide, no other provider can match that track record. Experience, flexibility, and technology make Hughes a leader. Why not look to the leader to fuel your business?
